2. This is one of the three Law and Order stations of Mangalore Circle. The Circle was re-organized as per orders in G.O.Ms.No.1426, Home Department, dated 25.6.43 (vide Chief Office endt.R.C.No.946/RA/43, dated 6.7.43). Though this re-organized scheme was originally intended to cover all the requirements of a town circle in the various aspects of its administration, changed conditions during the last three years, have called for the augmentation of the staff on an analogy with other towns in the Presidency, where the general requirements for the staff are either on a part or are enhanced.

3. The creation of a Central Crime Branch and the provision of Assistant Public Prosecutors for prosecution work have certainly facilitated some aspects of work which were formerly retained with the station staff; but the fact that this station is the heaviest charge in the District remains.

(a) The work in this station is very heavy and an additional Law and Order S.I. is well justified.

(b) On an average about 300 cases are registered, out of which of about 100 cases are being handled by the S.I. About 1000 cases under the Town Nuisance Act and M.T.Rules, about 500 cases under the Hackney Carriage Act, and about 300 cases under the M.V.Act are put up. Most of the cases are contested in the Courts and this requires the personal attention of the S.I. for their successful prosecution, in as much as he has no General Duty Head Constable to assist him. About 6000 processes are being dealt with here every year, and the checking of this register itself is a laborious task, entailing a major portion of the S.I's time. Tappal work is very heavy and on an average about 6 hours per diem are required by him for desk work. There are 50 K.Ds, 50 rowdies, about 400 ex-convicts and about 250 Gun licences. The S.I. himself attends to the checking of K.Ds and rowdies once a month. He has to go on night rounds thrice in a month.

(c) To add to this, the S.I. has to allot a considerable part of his time to maintain his Cash Book. Being the Headquarters Station cash transactions are very heavy. A list showing the monthwar cash transactions from November 45 to November 46 is appended. Total cash transactions exceed Rs.10,000 p.m. with the result that there will be about 550 entries in the Cash Book i.e. 18 entries per day. Normally, in the first week of every month, the S.I. has to sit up at the Cash Book for at least 5 hours per day and during the other day's for about 2 hours.

12.	October 46.	482	11165 2 6	
13.	November.46.	585	12733 7 0	

4. Further, in addition to the routine work mentioned above, the S.I. has to control the Traffic Section of one Head Constable and 22 P.Cs. who work at a dozen traffic points in an extensive area of the town. The work of the Hackney Carriage Section comprising of one H.C. and a P.C. has also to be supervised by him. He has to conduct frequent raids under the Suppression of Immoral Traffic Act, Gaming (Satta) Act, and such other work which are numerous and out of proportion to those duties at other stations in the district.

5. Sub-Inspectors of more than average ability and capacity for such ardous work were posted during the last three years, but it has been found that the best of them could not at any time do full justice to the charge entrusted to his care.

6. Government quarters are not available to accommodate the additional S.I. now requested. The rental value of a house suitable for the S.I. will be Rs.25/- per mensem.

Note:- The need for the appointment of an additional Sub-Inspector in the Mangalore North Taluk and order thereon is contained in the extract of the D.S.P.'s letter at pp 3-4 ante. The proposal to grant a conveyance allowance to the addl Sub-Inspector has not been justified. Conveyance allowance is granted in lieu of all other travelling allowance admissible under the rules and the officer should do a certain amount of regular touring. It can not be automatically sanctioned as the DA seems to suggest. The draft order overleaf, if approved, may be sent to Fin. for acceptance.
